-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121 and 372:

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

The various distinct therapeutic cosmetic treatments from the Markush Group instantly claimed (as recited in claim 16) - i.e:

- A) inhibiting the synthesis of melanin and decreasing the effects of skin pigmentation.
- B) stimulating the growth and metabolism of human fibroblasts.
- C) anti-aging and/or anti-wrinkle effect and providing a revitalizing or rejuvenating effect on stressed or tired skin and promoting the repair of aged and/or photo-aged skin and providing an appeasing and anti-irritation effect against oxidative stress and pollutants and providing an antioxidant effect and protecting against UV or IR radiation.
- D) promoting hair growth or the delay of hair loss.
- E) providing a protease inhibition effect.

Applicant is required, in reply to this action, to elect a single species (i.e., elect a therapeutic cosmetic treatment from among Groups A-E above): which the claims shall be restricted if no generic claim is finally held to be allowable.

The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The following claim(s) are generic: claims 1, 10 and 17

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Each of the recited treatments are distinct because they are different and distinct therapies which do not require, or do not necessarily require, treating the same patient population.
